SPECIAL PROGRAMS

"Our Song"

For Young People

Children should be seen AND heard!
This is both a musical activity and a community -building experience that gives young people a chance to send a message to the world in a song they write together.

"Elly Winger's songwriting workshop was a huge asset to our summer camp program. She effectively led children on a journey of creative collaboration, while giving each child a distinct sense of individual artistry."

~Director, Catskill Woodland Camp

For People with Disabilities

Creativity and the need for self-expression resides in each of us regardless of our circumstances. Every voice is honored and incorporated into the song we create as a group.

"Self-esteem, pride, satisfaction, a sense of accomplishment for a job well done, are all outcomes that each person felt."

~S. Finkel, ARC of Delaware County

For Seniors

Music revitalizes the spirit and connects us to each other. Sharing experiences, wisdom and concerns through song combats isolation and loneliness, especially for those in senior residences.

CD PRODUCTION

Are you ready for a fresh outlook on your next CD? Or maybe you are ready to graduate from demos and home recordings. I will work with you to produce a broadcast quality album that you will be proud to share, and that will broaden your opportunities as an artist.

"Thank you for loving these songs, for unbelievable musicianship and for sharing your expertise."
~Kate Boyer, Children's Music Artist

"Armed with only an acoustic and/or National steel guitar, Elly can weave all manner of spells with expert finger picking, propulsive strumming and snaky slide... impressive!"

~ Robert Burke Warren, Chronogram Magazine~
